**The Band "Sweet" Returns**

Founding member of Sweet Steve Priest, has reformed the glittery fuzz-rock band that ignited U.K. and U.S. charts with 70s hits such as Ballroom Blitz, Little Willy, Fox on the Run and Love is Like Oxygen. The tour kicked off June 12th at the Whisky in Hollywood, CA and at the Canyon Club in Agoura Hills, CA. Stuart Smith (Guitar and Vocals) is playing the Kasha Rockmod combo and head. Special thanks to Karen Ard for this picture. Checkout more Sweet photos at Karen's website: [www.karenard.com](http://www.karenard.com).

**Candlebox - Guitarist Sean Hennesy on a 50 city tour with his new "Tweed" Kasha head speaks out.**

I spoke with Sean yesterday regarding the tour with CandleBox. He sounded like he was having a great time "living the dream". Sean has added his personal guitar charisma to CandleBox's tone. Try to go see them when they are in town. See their Myspace for show dates at: [www.myspace.com/candlebox](http://www.myspace.com/candlebox).

"If I could marry an amplifier, Kasha Amplifiers and I would elope today!! The tone on this amplifier is unreal. I've never played an amp that has so much cajones, yet, every note is crystal clear. Playing through it every night is making my guitar playing better and I have never had so many compliments on my sound. The clean tone is the richest, fullest, punchiest sound I have ever heard and the crunch channel is just right enough to rock. And the burn, Forget about it!! It's like Bruce Lee kicking his way right through the crowd!! Kudos to Kasha!!! I'll be playin these beasts till the end."

**Some Europe Pix**

I had a chance to visit some friends in Europe last month. What an amazing trip! There were many incredible things to see and do. Experience something new, take time out of our busy life and see what the rest of the world is up to. I hope you enjoy the above pictures.

**Hard Rock Cafè - "The Vault"**

While visiting the UK, I had the privilege to stop by London's Hard Rock Café. Apparently, the original HRC was opened by Isacc Tigrett and Peter Morton in 1971 across the street from the current London HRC location. In 1984 in NY, HRC introduced the first displays of music collectables.

After a delicious dinner of pulled barbeque pork and french fries, the waitress handed me a ticket to the "Vault". Well, that was certainly a surprise. I never thought I would come that close to some of rock's greatest guitar players' instruments and clothing. The above pictures were just some of the many rock memorabilia that I saw.

## Ancient Guitars

Ever wondered where the first guitars came from? Well, while in Paris France, I visited the Louvre. In the Egyptian exhibit, I ran across these instruments dating back more than 2000 years ago. I thought they were fascinating to look at. I noticed some had tuning pegs. I wonder if you put a pickup on them, how they would sound through the Kasha, Lol..

## **Raves From Greece**

The RM3 preamp is here! It's wonderful! It's 4 in the morning here, and I just stopped playing! Sounds different than the white one I had, this one is much better, although I didn't have the chance to play at high volume yet. The loop works great!

I've played so long since I got the preamp, that my fingertips hurt! My first impression is very rewarding! Thank you!

best regards,  
Apostolos from Athens Greece
